

## SSRP1-structure specific recognition protein 1 Gene

Reference: PTXBC005116

|                |                                                                                                                                                                                                                                                                 |                     |                |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                                                                                             | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                                                                                            | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | facilitates chromatin transcription complex subunit SSRP1; FACT complex subunit SSRP1; FACT; FACT80; T160; FACT 80 kDa subunit; FACTp80; chromatin-specific transcription elongation factor 80 kDa subunit; cisplatin-DNA SSRP; facilitates chromatin remodelin |                     |                |
