

EIF1AD-eukaryotic translation initiation factor 1A domain containing Gene

Reference: PTXBC005131

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	haponin; eukaryotic translation initiation factor 1A domain-containing protein; eukaryotic translation initiation factor 1A domain containing		

For research use only.

GENE DESCRIPTION	eukaryotic translation initiation factor 1A domain containing
GENE ID	84285
ORIGIN SPECIES	Human
ACCESSIONS	BC005131
VECTOR	pDONR223
NCBI SYMBOL	EIF1AD
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
