

EEF1E1-eukaryotic translation elongation factor 1 epsilon 1 Gene

Reference: PTXBC005291

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	AIMP3; P18; eukaryotic translation elongation factor 1 epsilon-1; ARS-interacting multifunctional protein 3; aminoacyl tRNA synthetase complex-interacting multifunctional protein 3; multisynthase complex auxiliary component p18; p18 component of aminoacyl		

For research use only.

GENE DESCRIPTION	eukaryotic translation elongation factor 1 epsilon 1
GENE ID	9521
ORIGIN SPECIES	Human
ACCESSIONS	BC005291
VECTOR	pDONR223
NCBI SYMBOL	EEF1E1
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
