

CUTA-cutA divalent cation tolerance homolog (E. coli) Gene

Reference: PTXBC005890

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	cutA divalent cation tolerance homolog; divalent cation tolerant protein CUTA; protein CutA; ACHAP; C6orf82; acetylcholinesterase-associated protein; brain acetylcholinesterase putative membrane anchor		

For research use only.

GENE DESCRIPTION	cutA divalent cation tolerance homolog (E. coli)
GENE ID	51596
ORIGIN SPECIES	Human
ACCESSIONS	BC005890
VECTOR	pDONR223
NCBI SYMBOL	CUTA
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
