

Reference: PTXBC006311

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	PICT-1; PICT1; glioma tumor suppressor candidate region gene 2 protein; p60; protein interacting with carboxyl terminus 1; glioma tumor suppressor candidate region gene 2		

For research use only.

GENE DESCRIPTION	glioma tumor suppressor candidate region gene 2
GENE ID	29997
ORIGIN SPECIES	Human
ACCESSIONS	BC006311
VECTOR	pDONR223
NCBI SYMBOL	GLTSCR2
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF1 (Only for reference, product provided without STOP codon)
