

Reference: PTXBC007692

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	SPG7, paraplegin matrix AAA peptidase subunit; CAR; CMAR; PGN; SPG5C; paraplegin; cell matrix adhesion regulator; spastic paraplegia 7 (pure and complicated autosomal recessive); spastic paraplegia 7 protein		

For research use only.

GENE DESCRIPTION	spastic paraplegia 7 (pure and complicated autosomal recessive)
GENE ID	6687
ORIGIN SPECIES	Human
ACCESSIONS	BC007692
VECTOR	pDONR223
NCBI SYMBOL	SPG7
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
