

## GPR108-G protein-coupled receptor 108 Gene

Reference: PTXBC007862

|                |                                                                                             |                     |                |
|----------------|---------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                         | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                        | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | protein GPR108; LUSTR2; lung seven transmembrane receptor 2; G protein-coupled receptor 108 |                     |                |
