

## CXCL10-chemokine (C-X-C motif) ligand 10 Gene

Reference: PTXBC010954

|                |                                                                                                                                                                                                                                                                 |                     |                |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                                                                                             | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                                                                                            | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | IFI10; INP10; IP-10; SCYB10; crg-2; gIP-10; mob-1; C-X-C motif chemokine 10; 10 kDa interferon gamma-induced protein; chemokine (C-X-C motif) ligand 10; gamma IP10; interferon-inducible cytokine IP-10; protein 10 from interferon (gamma)-induced cell line; |                     |                |
