

PROSC-proline synthetase co-transcribed homolog (bacterial) Gene

Reference: PTXBC012334

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	proline synthase co-transcribed bacterial homolog protein; proline synthetase co-transcribed (bacterial homolog); proline synthetase co-transcribed bacterial homolog protein; proline synthetase co-transcribed homolog; proline synthetase cotranscribed homo		

For research use only.

GENE DESCRIPTION	proline synthetase co-transcribed homolog (bacterial)
GENE ID	11212
ORIGIN SPECIES	Human
ACCESSIONS	BC012334
VECTOR	pDONR223
NCBI SYMBOL	PROSC
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
