

## GEFT-RhoA/RAC/CDC42 exchange factor Gene

Reference: PTXBC012860

|                |                                                                                                                                                                                                                                                                 |                     |                |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                                                                                             | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                                                                                            | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | rhoA/Rac/Cdc42 guanine nucleotide exchange factor GEFT; rac/Cdc42/Rho exchange factor GEFT; guanine nucleotide exchange factor GEFT; GEFT; p63RhoGEF; rho guanine nucleotide exchange factor 25; RAC/CDC42 exchange factor; Rho guanine nucleotide exchange fac |                     |                |
