

HN1L-hematological and neurological expressed 1-like Gene

Reference: PTXBC014438

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	C16orf34; L11; hematological and neurological expressed 1-like protein; CRAMP_1 like; HN1 like; HN1-like protein; hematological and neurological expressed 1 like		

For research use only.

GENE DESCRIPTION	hematological and neurological expressed 1-like
GENE ID	90861
ORIGIN SPECIES	Human
ACCESSIONS	BC014438
VECTOR	pDONR223
NCBI SYMBOL	HN1L
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
