

## RHBDF2-rhomboid 5 homolog 2 (Drosophila) Gene

Reference: PTXBC016034

|                |                                                                                                                                                                                       |                     |                |
|----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                   | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                  | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | RHBDL5; RHBDL6; TEC; TOC; TOCG; iRhom2; inactive rhomboid protein 2; rhomboid family member 2; rhomboid veinlet-like protein 5; rhomboid veinlet-like protein 6; rhomboid 5 homolog 2 |                     |                |

**For research use only.**
