

## NAT14-N-acetyltransferase 14 (GCN5-related, putative) Gene

Reference: PTXBC019079

|                |                                                                                                                                                                                                                     |                     |                |
|----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                                                 | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                                                | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | KLP1; N-acetyltransferase 14; K562 cell-derived leucine-zipper-like protein 1; K562 cells-derived leucine-zipper-like protein 1; N-acetyltransferase 14 (GCN5-related, putative); N-acetyltransferase 14 (putative) |                     |                |
