

DFNA5-deafness, autosomal dominant 5 Gene

Reference: PTXBC019689

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	DFNA5, deafness associated tumor suppressor; ICERE-1; non-syndromic hearing impairment protein 5; deafness, autosomal dominant 5; inversely correlated with estrogen receptor expression 1; nonsyndromic hearing impairment protein		

For research use only.

GENE DESCRIPTION	deafness, autosomal dominant 5
GENE ID	1687
ORIGIN SPECIES	Human
ACCESSIONS	BC019689
VECTOR	pDONR223
NCBI SYMBOL	DFNA5
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
