

F8-coagulation factor VIII, procoagulant component Gene

Reference: PTXBC022513

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	AHF; DXS1253E; F8B; F8C; FVIII; HEMA; coagulation factor VIII; antihemophilic factor; coagulation factor VIII A1 domain; coagulation factor VIII C2 domain; coagulation factor VIII, procoagulant component; coagulation factor VIIIc; factor VIII F8B		

For research use only.

GENE DESCRIPTION	coagulation factor VIII, procoagulant component
GENE ID	2157
ORIGIN SPECIES	Human
ACCESSIONS	BC022513
VECTOR	pDONR223
NCBI SYMBOL	F8
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
