

## ELMO3-engulfment and cell motility 3 Gene

Reference: PTXBC034410

|                |                                                                                                                 |                     |                |
|----------------|-----------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                             | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                            | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | CED-12; CED12; ELMO-3; engulfment and cell motility protein 3; ced-12 homolog 3; engulfment and cell motility 3 |                     |                |

**For research use only.**

|                         |                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------|
| <b>GENE DESCRIPTION</b> | engulfment and cell motility 3                                                                   |
| <b>GENE ID</b>          | 79767                                                                                            |
| <b>ORIGIN SPECIES</b>   | Human                                                                                            |
| <b>ACCESSIONS</b>       | BC034410                                                                                         |
| <b>VECTOR</b>           | pDONR223                                                                                         |
| <b>NCBI SYMBOL</b>      | ELMO3                                                                                            |
| <b>LENGTH</b>           | ProteoGenix bp                                                                                   |
| <b>SEQUENCE PRIMERS</b> | Forward primer M13R (5'→3'): GTAAACGACGGCCAGT<br>Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG |

### ORF (Only for reference, product provided without STOP codon )
