

SMARCAD1-SWI/SNF-related, matrix-associated actin-dependent regulator of chromatin, subfamily a, containing DEAD/H box 1 Gene

Reference: PTXBC045534

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	ADERM; ETL1; HEL1; SWI/SNF-related matrix-associated actin-dependent regulator of chromatin subfamily A containing DEAD/H box 1; ATP-dependent helicase 1; SWI/SNF-related, matrix-associated actin-dependent regulator of chromatin, subfamily a, containing D		

For research use only.

GENE DESCRIPTION	SWI/SNF-related, matrix-associated actin-dependent regulator of chromatin, subfamily a, containing DEAD/H box 1
GENE ID	56916
ORIGIN SPECIES	Human
ACCESSIONS	BC045534
VECTOR	pDONR223
NCBI SYMBOL	SMARCAD1
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
