**AMMECR1-Alport syndrome, mental retardation, midface hypoplasia and elliptocytosis
chromosomal region gene 1 Gene**

Reference: PTXBC060813

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	AMMERC1; AMME syndrome candidate gene 1 protein; Alport syndrome mental retardation midface hypoplasia and elliptocytosis chromosomal region protein 1; Alport syndrome, mental retardation, midface hypoplasia and elliptocytosis chromosomal region gene 1		

For research use only.

GENE DESCRIPTION	Alport syndrome, mental retardation, midface hypoplasia and elliptocytosis chromosomal region gene 1
GENE ID	9949
ORIGIN SPECIES	Human
ACCESSIONS	BC060813
VECTOR	pDONR223
NCBI SYMBOL	AMMECR1
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
