

Reference: PTXBC067418

Product type:	DNA	Storage Condition:	-20°C
Size/Quantity:	2 ug	Delivery Condition:	+4°C, Blue Ice
Synonyms	ACTRII; ACVR2; activin receptor type-2A; activin A receptor, type IIA; activin A receptor type 2A		

For research use only.

GENE DESCRIPTION	activin A receptor, type IIA
GENE ID	92
ORIGIN SPECIES	Human
ACCESSIONS	BC067418
VECTOR	pDONR223
NCBI SYMBOL	ACVR2A
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG
