

## CCR9-chemokine (C-C motif) receptor 9 Gene

Reference: PTXBC069678

|                |                                                                                                                                                                  |                     |                |
|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                              | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                             | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | CC-CKR-9; CDw199; GPR-9-6; GPR28; C-C chemokine receptor type 9; G protein-coupled receptor 28; chemokine (C-C motif) receptor 9; C-C motif chemokine receptor 9 |                     |                |
