

## RLF-rearranged L-myc fusion Gene

Reference: PTXBC113666

|                |                                                                                                                                                                                 |                     |                |
|----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                             | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                            | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | zinc finger protein Rlf; ZN-15L; ZNF292L; Zn-15 related; rearranged L-myc fusion gene protein; rearranged L-myc fusion sequence; zn-15-related protein; rearranged L-myc fusion |                     |                |

**For research use only.**

|                         |                                                                                                   |
