## FZD5-frizzled homolog 5 (Drosophila) Gene

Reference: PTXBC114346

|                |                                                                                                                                                                                                        |                     |                |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|----------------|
| Product type:  | DNA                                                                                                                                                                                                    | Storage Condition:  | -20°C          |
| Size/Quantity: | 2 ug                                                                                                                                                                                                   | Delivery Condition: | +4°C, Blue Ice |
| Synonyms       | C2orf31; HFZ5; frizzled-5; Wnt receptor; frizzled 5, seven transmembrane spanning receptor; frizzled family receptor 5; fz-5; fzE5; seven-transmembrane receptor frizzled-5; frizzled class receptor 5 |                     |                |
