CTBS-chitobiase, di-N-acetyl- Gene

Reference: PTXBC126333

Product type:

DNA

Storage Condition:

-20°C

Size/Quantity:

2 ug

Delivery Condition:

+4°C, Blue Ice

Synonyms

CTB; di-N-acetylchitobiase; chitobiase, di-N-acetyl-; chitobiase

For research use only.

GENE DESCRIPTION	chitinase, di-N-acetyl-
GENE ID	1486
ORIGIN SPECIES	Human
ACCESSIONS	BC126333
VECTOR	pDONR223
NCBI SYMBOL	CTBS
LENGTH	ProteoGenix bp
SEQUENCE PRIMERS	Forward primer M13R (5'→3'): GTAAAACGACGGCCAGT Reverse primer T7P (5'→3'): TAATACGACTCACTATAGG

ORF (Only for reference, product provided without STOP codon)
